PINOT GRIS
Tudor Hills Vineyard

NOVEMBER 3
LAST CRUSH
CABERNET SAUVIGNON
Klipsun Vineyard

WINEMAKER NOTES

One of the coolest starts to the growing season on record, late snow fall delayed bud break significantly. By mid-June, the weather had turned and was warming up faster than historical numbers and by mid September throughout Washington the weather was pushing ahead. A wonderful Indian summer allowed for fruit ripening and held balanced acid levels as the fruit ripened well for the rest of the growing season.

- Richard Batcher
